ABSTRACT

Quiz Application is an interactive web-based platform designed to enhance learning through engaging quiz formats. The application enables users to explore and attempt multiple choice quizzes across various subjects and difficulty levels It features a user-friendly interface with functionalities such as user authentication. Performance tracking, and leaderboard rankings to promote competitive learning. The platform supports responsive design, ensuring accessibility across devices and enabling learning anytime, anywhere. With scalability in mind, the system can be extended for use in schools, universities, and corporate training programs.
